## PROJECTS

**Full Stack Fitness Web Application:**

🌐 Live website
</> Github Repo

- Engineered an extensive platform enabling users to search a vast exercise database with advanced filtering capabilities.
- Implemented a seamless user experience for workout creation, submission, and health metrics calculation.
- Facilitated secure user account management, leveraging modern authentication protocols.
- Utilized a cutting-edge tech stack: React, Next.js 13, Tailwind CSS, MongoDB with Mongoose, NextAuth, JWT, and integrated various APIs.

**Code with Aloha Website Development:**

🌐 Live website
</> Github Repo

- Crafted a digital platform spotlighting our team's passion for community enhancement via tech since 2009.
- Featured sections include a rich 'About Us', detailed event announcements, and an extensive project portfolio.
- Presented diverse client engagements and streamlined avenues for prospective client interactions.
- Integrated a user-friendly volunteer sign-up, promoting easy event access and community involvement.
- Built using React18, NextJS13, Tailwind CSS and Framer Motion.
